

AM03L27 MR16 Glass LED Bulb

- ▶ Comparable performance to 35 Watt Halogen
- ▶ Long Lifetime 30,000 hrs
- ▶ Uses Nichia of Japan Warm White 2700K LED
- ▶ CRI of 80 or higher

The AM03L27 light bulb is designed to meet any application inside or outside.

This low cost product can retrofit any recessed light fitting in your home, office or retail shop and is fully dimmable.

This low cost and low power bulb is designed to fit any MR16 (GX5.3) 12 Volt socket. The product uses Nichia of Japan LM80 tested LEDs. LM80 is the Illuminating Engineering Society (IES) approved method for confirming a manufacturer's lumen maintenance data - [Learn More](#)

APPLICATIONS

The MAG Assembly MR16 Warm White LED bulbs are commonly used in home lighting applications and are used to quickly replace halogen MR16 bulbs. MAG Assembly also provides a small safety approved and tested LED transformer to replace problematic halogen transformers. Our systems work off any 12 Volt AC transformer and are used to replace 20 Watt and 35 Watt bulbs.

LUMEN/LIGHT OUTPUT

The light output of the AxiomLED AM03L27 is comparable to a 35 Watt and has a beam angle or viewing angle of 60 Degrees.

DIMMING

The AM03L27 is designed to work with any magnetic low voltage dimmers that are already installed or that can be purchased at any big box hardware retail store.
